

## CANINE / PET TESTIMONIALS

**Below is a small selection of comments and feedback received from our customers:-**

**Michael Saling:** “We use it for our 2 French bulldogs who since they take it have much improved in their digestion.

**Kay Taylor:** “I emailed you a while ago about my greyhound and you recommended the happy tummy, just to say it has been a fantastic success. All the months of running back to the vets and test after test finally something that has settled his belly. He has been having it for about 3 weeks now and so far (touch wood!!) not even a slight runny poo! ...”

**Collette:** “I have already used it on 1 of my dogs-she seemed to think devouring chicken droppings was a good idea!-and it settled her tummy with 1 application in her food. As someone who runs her own dog walking & pet care business I will not hesitate to recommend Happy Tummy to customers and with it uses in "emergency" situations I think every dog owner should keep some.”

**Kathy Carter:** “(Re. Brucie, the dog) it has definitely helped the colitis that he was getting after changing to strong anti-epilepsy meds.”

**Xenia Aidonopoulou, Alternative & Holistic Therapist:** I have been using it with my kitty and it is indeed helping him with the nausea, it has made a positive difference along with all the other stuff I am doing and it does pass through the syringe no problem without needing to be ground up further... It also does not appear to be taking up nutrients from his food or the other supplements i am giving him... as he is seeming better and more stable... It is really very kind of you, let me know if you would like me to write you a short review for your site stating the above..
